Rising To The Occasion

Snyder Stairs LLC has elevated the visual statement of a staircase to one of grand elegance. Today's discriminating home and business owners know that their choice of balusters is so much more than a point of detail, it is the pivotal decision that completes a carefully-planned interior design.

If ascending your staircase is to be a special occasion, rise to that occasion with Elegant Rise or Structural Rise balusters.

Cambered Post to Post

Cambered Over the Post

Linear Post to Post

Elegant Rise

Elegant Rise balusters are created in sets of three for each step. Measuring 34", 38" and 42" in height, their lower one-third "base" is proportioned to create a smooth, flowing line in ascent.

Structural Rise

Structural Rise balusters are available in 5 different turning lengths: 31", 34", 36", 39" and 42", and each set has bases of identical height to emphasize individual steps in your staircase statement.

STANDARD FEATURES

A photograph of a wooden staircase with a mission-style box newel post and black iron balusters. The newel post is a thick, square wooden column with a simple, functional design. The balusters are black iron rods with square bases. The staircase is made of light-colored wood, and the wall is white. The floor is also made of light-colored wood.
